## GRAMMAR PRACTICE

### THEY'RE, THEIR, and THERE

© Brought to you for classroom (not commercial) use by ASU students in English Education

English has three words that sound the same, but are actually quite different.

**They're** seems as though it could mean many things. Actually, it is a contraction of *they are*. The confusion probably relates to the fact that people are unsure about using apostrophes. When you write *they're*, ask yourself whether you can substitute *they are*. If not, you have made a mistake.

**Their** and **Theirs** are possessive pronouns similar to *her* and *hers* and *our* and *ours*. The fact that *heir* (referring to a person who inherits something) is hidden in the words *their* and *theirs* might help you remember that these are possessive pronouns. Another thing to remember with *their* and *theirs* is that possessive pronouns do not take apostrophes as shown in these sentences:

They eat *their* hamburgers with ketchup.

I think the car is *theirs*.

Because of the old rule about “*I* before *e* except after *c*,” people sometimes misspell this word as *t-h-i-e-r*. You can avoid this problem by remembering that all three of these words (*they*, *their*, and *there*) begin with the same three letters: T-H-E.

**There** is the most common of these three words. It is used in such sentences as:

*There* goes the ball--out of the park!

Put it right *there*!

*There* are not many home runs hit like that.

Another helpful hint is that *here* is buried inside *there*. The phrase “*here* and *there*” might help you remember that T-H-E-R-E is the word that people sometimes use to point to a place.
